

Caboche Plus, terra

by Patricia Urquiola , Eliana Gerotto

FOSCARINI

DESCRIPTION

Rich, bright and sophisticated, the Caboche Plus lamp is a mosaic of refractions, a perfect fusion of different personalities in the one form, coming together to create the body and light effect of the lamp. When it is turned on, the light diffuses from inside the spheres like lots of bright crystals, providing 360° lighting of the surrounding environment and guaranteeing both upward and downward lighting. Caboche Plus floor lamp is a small jewel of creativity and technology, available in two sizes and two versions: transparent and grey. The original design of the stem is created by the three supports that join together to form the round base, recalling the spherical form of the diffuser, and thus guaranteeing a combination of coherence, originality and lightness. Caboche Plus is the perfect protagonist for homes or public areas, uniting visual impact with lightness, decorative value and functionality.

MATERIALS

PMMA, polycarbonate and white laquered metal.

COLORS

Transparent, Grey

technical details

FOSCARINI

Floor lamp with diffused, direct and indirect light. Structure comprising transparent PC arches, onto which a series of PMMA spheres are applied, using the new twist lock system. The lamp body consists of two powder coated steel sheets, which incorporate the double-sided LED board, designed specifically by Foscarini. The LED board is installed on an aluminium disc that acts as a dissipator, which is protected at the top by a small opaline PMMA disc and at the bottom by a satin-finish PMMA diffuser. Round die cast aluminium base and epoxy powder coated extruded aluminium rods. The transparent cable is fitted with a dimmer which can be used both to adjust the level of luminous intensity gradually or as the ON/OFF switch.
